

Independent study - Year 7 and 8

For students in year 7 or 8, they have been set additional Mymaths tasks by their teacher; this includes an online lesson and corresponding online homework task. They should go through the lesson, working through the examples as they go. Once they have done this, they should attempt the homework task. They should re-try the online homework until they achieve green (70% or above). This should be done in their red homework book if they have it. Students have been set work appropriate for the maths class they are in.

The Students must make sure they are regularly checking their emails, as that is how their maths teacher will keep in contact with them. Teachers will inform students when there are new tasks to complete, and when these need to be completed by.

The school login for Mymaths is as follows:

Username: sgcs

Password: volume

Students should know their passwords for their personal portal. However, if you have any problems with logins or the work set, then please do not hesitate to contact your maths teacher via email.
