

Q18.

# GCSE Mathematics Practice Tests: Set 3

## Paper 3H (Calculator) Time: 1 hour 30 minutes

You should have: Ruler graduated in centimetres and millimetres, protractor, pair of compasses, pen, HB pencil, eraser, calculator.

#### Instructions

- Use black ink or ball-point pen.
- Fill in the boxes at the top of this page with your name, centre number and candidate number.
- Answer all questions.
- Answer the questions in the spaces provided – there may be more space than you need.
- · Calculators may be used.
- Diagrams are NOT accurately drawn, unless otherwise indicated.
- · You must show all your working out.

#### Information

- The total mark for this paper is 80
- The marks for each question are shown in brackets
   use this as a guide as to how much time to spend on each question.

#### Advice

- · Read each question carefully before you start to answer it.
- Keep an eye on the time.
- Try to answer every question.
- · Check your answers if you have time at the end.

#### ALWAYS LEARNING

Practice Tests: Set 3 Regular (3H) – Version 1.0 This publication may only be reproduced in accordance with Pearson Education Limited copyright policy. C2016 Pearson Education Limited.

edexcel

Inequalities

#### Answer ALL questions.

Write your answers in the spaces provided.

You must write down all the stages in your working.

- 1.  $-2 < n \le 3$ n is an integer. -3 whole numbers
  - (a) Write down all the possible values of n.

*x* is a number. Another number is 9 greater than *x*. Both numbers are whole numbers.

The total of the two numbers is less than 60

(b) Find the greatest possible value of x.

20+20+9 < 60 x  $\begin{array}{c|c} x + 2 + 2 + 4 < 60 \\ \hline x + 9 \\ \hline collect \\ (=2) \\ \hline conclusion \\ \hline concl$ 

25 (3) (Total 5 marks)

-1,0,1,2,3

(2)

Use ruler and compasses to **construct** the perpendicular bisector of the line *AB*. You must show all your construction lines.

(Total 2 marks)

2

3. Alex and Ben go to a cafe with some friends.

Alex buys 4 cups of coffee and 3 cups of tea. He pays a total of £6.95

Ben buys 5 cups of coffee and 2 cups of tea. He pays a total of  $\pounds$ 7.20

Work out the cost of each cup of coffee and the cost of each cup of tea.

(Total 5 mark)

Smulteneored Equations

Fractions and % s of an amount

4. Beth has 600 counters.

wer

 $\frac{3}{5}$  of the counters are yellow. 25% of the counters are red. The rest of the counters are green.

Beth is given some more red counters. Now the ratio of the number of green counters to the number of red counters is 1:2

How many red counters was Beth given?

Yellow
 
$$\frac{3}{5}$$
 of  $600 = \frac{3}{5} \times 600 = 360$ 

 Red
  $25\% of 600$ 
 $= 150$ 

 Green
  $600-360-150$ 
 $= 90$ 

 Ratio R: G
  $150:90$ 
 $= 90$ 

 Ratio R: G
  $150:90$ 
 $= 130$ 

 Tomake ratio 1:2,
  $100:150$ 
 $= 130$ 

 Ne need 90:180
  $::$  Beth was given 30 ved counted

Practice test paper 3H (Set 3): Version 1.0

Diagram **NOT** accurately drawn

Work out the value of *x*. Give your answer correct to 3 significant figures.

Soficiation  $\sin \Theta = \Theta_{H}$   $\sin 43 = \frac{x}{7.8}$  (x7.8)  $7.8 \times \sin \omega 3 = 20 = 5.32(35.4)$ x = 5.32 cm(Total 3 marks)

6

6.

7. (a)  $A = \{p, r, a, g, u, e\}$  $B = \{p, a, r, i, s\}$  $C = \{b, u, d, a, p, e, s, t\}$ 

List the members of the set

(i)  $A \cap B$ ONLY and BOTH

(ii)  $B \cup C$ ONE OR THE or OFTER (OR BOTH)

par parisbudget (2)

(b)  $D = \{r, o, m, e\}$  $E = \{1, i, s, b, o, n\}$  $F = \{b, e, r, l, i, n\}$ 

 $\langle A \rangle$ 

Put one of the letters D, E or F in the box below to make the statement correct.

$$A \cap \boxed{\mathsf{E}} = \emptyset$$

Explain your answer.

No letters of A are also in E :. A n E is empty. (1) (Total 3 marks)

Formulae (substitution and learninging)

8. Here is a formula used to work out the speed, v mph, of a car making an emergency stop.

 $v = \sqrt{21d}$ 

d feet is the length of the mark the car's tyres make on the road when making an emergency stop.

A car makes an emergency stop. The car's tyres make a mark 90 feet long.

(*a*) Work out the speed of the car. Give your answer correct to the nearest whole number.

> $V = \sqrt{21(90)}$ V = 44 (nearest which mph)

A car made an emergency stop. The car's speed was 50 mph.

(b) Work out the length of the mark on the road. Give your answer correct to the nearest whole number.

$$V = \sqrt{21d}$$
 50 =  $-\sqrt{21d}$   
 $(ANS)^2$  2500 = 21d  
 $(=21)$  119 = d (neevest whole)

feet

(Total 5 marks)

volume of cylinders

9. The diagram shows a large tin of pet food in the shape of a cylinder.

Diagram **NOT** accurately drawn

The large tin has a radius of 6.5 cm and a height of 11.5 cm.

A pet food company wants to make a new size of tin.

The new tin will have a radius of 5.8 cm. It will have the same volume as the large tin.

Calculate the height of the new tin. Give your answer correct to one decimal place.

NEW TIN V= Tr2h (volume = same)

 $(=\pi)$ 

 $(\div(5.8)^2)$ 

$$\frac{(34+3)^{2} \times (100)^{2} \times (100)^{2}}{V = 77 (6.5)^{2} \times (10.5)^{2}}$$

$$\frac{3887}{8} = 77 (5.8)^{2} \times (100)^{2}$$

$$\frac{3887}{8} = (5.8)^{2} \times (100)^{2}$$

Independent isrent Probability Trees

**10.** Simon wants to raise money for charity. He designs a game for people to play.

Simon uses two fair 5-sided spinners for the game.

People spin each spinner once. A person wins the game when both spinners land on the same letter.

People pay 40p for each game they play. The prize for a win is £1.

Work out if Simon is likely to raise any money for charity with his game.

40p>28p ... profit is expected to be made 1 YES.

Practice test paper 3H (Set 3): Version 1.0

Repeated «/. change

11. The value of a motor bike depreciates by 20% each year.

Brian says,

"After two years, the value of the motor bike will have reduced by 40%".

He is wrong.

Explain why.

Suppose Brian's bike =  $\pm 100$ End of year 1 =  $\pm 100 - 20\% = \pm 80$ End of year  $z = \pm 80 - 20\% = \pm 64$ But a 40\% reduction of original amount would have given  $\pm 60$ .  $\pm 64 \neq \pm 60$  so Brien is worg.

Area of a triagle SINE

12. The diagram shows a regular pentagon ABCDE.

Diagram **NOT** accurately drawn

The pentagon is divided into 5 isosceles triangles. OA = OB = OC = OD = OE = 6 m

Work out the area of the pentagon. Give your answer correct to 1 decimal place.

e.

360°= 5 = 72° gles around a pont 85-6 .. m<sup>2</sup> (Total 4 marks)

13. The points A(6, 1) and B(-2, 5) are on the line with equation  $y = -\frac{1}{2}x + 4$ *M* is the midpoint of *AB*.

Find an equation of the line through *M* that is perpendicular to  $y = -\frac{1}{2}x + 4$ 

$$y=metc \qquad y=-\frac{1}{2}x+4 \implies m=-\frac{1}{2}$$

$$M_1 \times m_2 = -1 \qquad \therefore \text{ gradient of perpendicular line} = 2.$$

$$y=2a+c$$

$$through M \qquad M=\left(\frac{6+-2}{2}, \frac{1+5}{2}\right)$$

$$m_1dpmid=\left(\frac{x+2}{2}, \frac{1+5}{2}\right)$$

$$\therefore m=\left(2,3\right)$$

$$\therefore y=ac+c \qquad 3=2(2)+c$$

$$3=2(2)+c$$

$$3=2(2)+c$$

$$3=2(2)+c$$

$$y=2x-1$$

$$y=2x-1$$

Ч	= 2x-1

Inverse Proportion

14. In the winter a farmer feeds his cows with hay each day.

The number of days, d, the hay will last is inversely proportional to the number of cows, c, the farmer has.

The farmer has enough hay to feed 280 cows for 25 days.

(a) Find a formula for d in terms of c.

The farmer has 350 cows.

(b) How many days will the farmer be able to feed all his cows with hay?

days
(2)
(Total 4 marks)

Graduert of a cure

15. Hot drinks are served at a temperature of 70 °C.

The graph shows the temperature of a hot drink as it cools in a china mug from the time it is served.

Work out the rate of cooling of the drink at time 20 minutes.

Gradient  
Draw Targert (20,35) and (10,43)  

$$M = \frac{43}{72}$$
  
 $M = \frac{43}{10-20} = \frac{8}{-10} = -0.8^{\circ}$ C per minute  
O.8 °C per minute  
O.8 °C per minute

Practice test paper 3H (Set 3): Version 1.0

Comparing "Bax Plots"

16. Adele grew 30 cabbages.

She gave fertiliser to 15 of the cabbages. She did **not** gave fertiliser to the other 15 cabbages.

Here are the final weights, in kilograms, of the 15 cabbages Adele gave fertiliser to.

1.5	,1.5	1,6	1.6	1.6	1.7	1.8	1.8
2.0	2.0	2.0	2.0	2.2	2.5	2.6	

Here is some information about the final weights, in kilograms, of the 15 cabbages Adele did **not** give fertiliser to.

Smallest	1.0
Largest	2.1
Median	1.4
Lower quartile	1.2
Upper quartile	1.6

Compare the two distributions of weights.

The fertilised caldages are heavier (on average) than the others , as shown by a higher medion. The spread of data is the same in both data sets as the range and IOR are equal in both.

(Total 2 marks)

Practice test paper 3H (Set 3): Version 1.0

- A field is in the shape of a rectangle. The width of the field is 28 metres, measured to the nearest metre.
  - (a) Work out the upper bound of the width of the field.

The length of the field is 145 metres, measured to the nearest 5 metres.

(b) Work out the upper bound for the perimeter of the field.

$$\frac{145}{-25} \frac{107-5}{102-5} \frac{1}{1000} \frac{5+2}{5+2} = 2.5$$

$$\frac{352}{-25} \frac{102-5}{1000} \frac{352}{-25} \frac{102}{-25} \frac{352}{-25} \frac{$$

Data Interpretation (Tables) Vo of amounts

**18**. The tables show some information about the population of the United Kingdom (UK) in 2003 and in 2008.

2003				
	Area (km²)	Number of people per km <sup>2</sup>		
England	130 281	383		
Northern Ireland	13 576	125		
Scotland	77 925	65		
Wales	20 732	142		

2008	
	Percentage of total UK population
England	84%
Northern Ireland	4%
Scotland	9%
Wales	3%

In 2008, the total population of the UK was 61 million.

The population of England increased between

2003 and 2008 Work out this increase. Give your answer correct to 2 significant figures.

	(Total 5 marks)
Difference (2sf)	= 1,342,377 = 1,300,000 (25.f)
Popularien of ENG in 2003 :	1302 81 × 383 =
Population of ENG in 2008.	840/6 cf 61 million = 51.24 million = 51,240,000

### courie Rule

$$AC = 90$$
 m.  
 $BC = 60$  m.  
Angle  $ACB = 130^{\circ}$ .

Calculate the perimeter of the triangle. Give your answer correct to one decimal place.

Histograms

#### 20. The histogram shows information about the areas of some farms.

Solving Fractional Algebraic Equations

21. Solve 
$$\frac{5(2x+1)^2}{4x+5} = 5x-1$$
  
(x(4x+5))  $5(2x+1)^2 = (5x-1)(4x+5)$   
expand  $5(2x+1)(2x+1) = 20x^2 + 25x - 4x-5$   
is concreated  $5[4x^2+2x+2x+1] = 20x^2 + 21x - 5$   
is collect  $5[4x^2+2x+2x+1] = 20x^2 + 21x - 5$   
 $5[4x^2+4x+1] = 20x^2 + 21x - 5$   
 $20x^2 + 20x + 5 = 20x^2 + 21x - 5$   
(-20x<sup>2</sup>)  $20x + 5 = 20x^2 + 21x - 5$   
(-20x<sup>2</sup>)  $5 = 21x - 5$   
(-20x)  $5 = 21x - 5$   
(+5)  $10 = x$
