

A MESSAGE FROM PETER SYMONDS COLLEGE

RESOURCES FOR YEAR 11, HOLDING AN OFFER AT PSC

You should have started to receive emails from the subjects you've expressed an interest in with some study tips, recommended reading and research to prepare you for joining us in September. Following the suggestions will be great preparation for Peter Symonds and will keep your brain working for the coming weeks.

For students who want to be further stretched and challenged there is a great opportunity to complete a short Critical Thinking extension course. Please email Admissions for more information.

We are keen to ensure you have a good break over the summer and are ready to start College feeling excited, refreshed and re-energised after a tough year! Keep an eye on your emails and student accounts for updates and contact Admissions with any queries.

We will also shortly be sending out information on our vast enrichment programme and our sports programme, both competitive and recreational.

With kind regards, the Admissions Team.
